Statement of RoHS

To the best of our knowledge Setiket products are in compliance with the requirements EU directive 2011/65/11 (ROHS2) and EU directive 2015/863.

The ten restricted substances are not intentionally added, not present or above the stated threshold level

Restricted substance	Maximum concentration values by weight
Lead (Pb)	0,1 %
Mercury (Hg)	0,1%
Cadmium (Cd)	0,01%
Hexavalent chromium (Cr6+)	0,1%
Polybrominated biphenyles (PBB)	0,1 %
Polybrominated diphenyl ethers (PBDE)	0,1 %
Bis(2-ethylhexyl) phthalate (DEHP)	0,1%
Butyl benzyl phthalate (BBP)	0,1%
Dibutyl phthalate (DBP)	0,1%
Diisobutylphthalate (DIBP)	0,1%

In addition, we represent and warrant that we will continue cooperation with suppliers to monitoring any new amendments or changes to the products and ROHS Directive and subsequently review its status regards to compliance.

We are aware that some customers may require detailed information or individual declaration for products produced and supplied by Setiket A/S in regard to this and other regulations. The investigation of specific part numbers and issuing of individual declarations requires a lot of manual work and is very costly for us. Due to this, the management has decided to charge a service-fee of DKK 750,00 /EUR 100,00 per part number investigated.

In case you want us to investigate specific parts numbers, we kindly ask you to list these in an excel spreadsheet and forward this together with an authorized PO covering our service-fee to the attention of Mrs. Lene Dahl at LD@Setiket.com.

The above information is based on currently available information retrieved and received from our suppliers and do not constitute a guarantee or warranty.

Setiket shall not under any circumstances be liable for direct, incidental, special or consequential damages (including, but not limited to loss of profit, revenue or business) related to or arising out of using the product.

We trust that you understand our policy regarding this issue and are looking forward to our continued good cooperation in future.

Best regards

Setiket A/S
